

Professional Standard: Registered Prescribed Burn Planner

Authority

This standard was endorsed by the EMPS Panel in August 2018.

Context

The Emergency Management Professionalisation Scheme (the Scheme) is a program to recognise the skills, abilities and experience of emergency management practitioners.

Established by AFAC, the national council and peak body for fire, land management and emergency service agencies in Australia and New Zealand, the Scheme is an initiative designed to promote emergency management as a profession.

The Scheme is open to career and volunteer personnel of AFAC member agencies, as well as individuals from other approved organisations.

Scope of application

This standard applies to applicants seeking registration in the role of Registered Prescribed Burn Planner. Registered Prescribed Burn Planners have demonstrated proficiency in planning for complex prescribed burns.

This category of registration is limited to prescribed burning personnel only and is hazard-specific. Registered Prescribed Burn Planners are proficient in the preparation of plans that incorporate the specifications and conditions under which a complex prescribed burn is to be conducted, i.e. a burn characterised by moderate to high risk, a range of fire intensity, medium to large areas, significant potential impact on assets and involving a variety of fuels and terrain.

Applicants may be career staff or volunteers of AFAC member agencies or personnel from other approved organisations.

Credential

Registration as a Prescribed Burn Planner is awarded to an individual who has successfully fulfilled all eligibility requirements. Individuals will be recognised as proficient in prescribed burn planning, with at least two years' relevant experience.

Education requirements for Prescribed Burn Planner

Applicants must be able to provide documented evidence of successful completion of the education components and all associated prerequisites as specified in Table 1.

Table 1:

Course or Program
PUATAE001B Work in a team PUAFIR215 Prevent injury PUAFIR303B Suppress wildfire PUAOPE020A Lead a crew PUAFIR513 Develop complex prescribed burns
A vocational or other qualification which was awarded after formal assessment and which in the view of the Panel provides evidence of the Applicant’s competence as a prescribed burn planner equivalent to the PSTP units of competency described above.

Experience requirements for Prescribed Burn Planner

An applicant must be able to provide documented evidence to demonstrate that he or she:

- Has committed to the EMPS Code of Ethics 2017.
- Has successfully fulfilled the role of Prescribed Burn Planner for complex burns (defined as a burn characterised by moderate to high risk, a range of fire intensity, medium to large areas, significant potential impact on assets and involving a variety of fuels and terrain) for at least two years and has had plans approved for a minimum of three complex burns, with at least one being in the 12 months before applying,
- On at least one occasion, that a complex burn was successfully conducted based on a plan prepared by the applicant.
- Is supported by their home agency or jurisdiction.

Definitions

Complex burn:

A burn characterised by moderate to high risk, a range of fire intensity, medium to large areas, significant potential impact on assets and involving a variety of fuels and terrain.

Review

This standard will commence August 2018. The Panel will review this standard following five years of operation or as required.
